

BIOL 1400A Fall 2025 Class Schedule

Homeworks will be available by 5:00pm on Wednesdays and are due the following Sunday before midnight (11:59pm) unless otherwise noted. To prepare for our discussions, complete the readings prior to class on the first date indicated; the numbers indicate chapter modules in our textbook. The one reading that's not from our book on HIV will be posted on Brightspace with the class materials for exam 4.

Date	What Are We Discussing?	Readings	Homework Posting and Due Dates
Mon. 8/25	Introduction - Course logistics and semester topics - Process of Science case study		Intro Mastering Bio due Wed. 9/3 Intro Course “Quiz” due Wed. 9/3
Wed. 8/27	Process of Science: Components and connections	1.1 1.4 – 1.7	Set up iClicker; points start Wed. 9/3
Fri. 8/29	Process of Science: Components and connections		
Mon. 9/1	No Classes – Labor Day!		
Wed. 9/3	Molecules & Cells: Atoms and Bonds	2.3, 2.5 – 2.8	HW#1 posted – due Sun. 9/7
Fri. 9/5	Molecules & Cells - Water - Biomolecules: nucleic acids and proteins	2.10 – 2.13 3.12 – 3.13, 3.15	
Mon. 9/8	Molecules & Cells - Biomolecules: carbohydrates and lipids - Prokaryotic vs. eukaryotic cells	3.3 – 3.10 4.3 – 4.4, 4.22	
Wed. 9/10	Intro to Cellular Energy - Understanding cellular energy - Cellular reaction rates	2.9 5.10 – 5.11	HW#2 posted – due Sun. 9/14
Fri. 9/12	Intro to Cellular Energy: Enzymes	5.13 – 5.16	

Date	What Are We Discussing?	Readings	Homework Posting and Due Dates
Mon. 9/15	Intro to Cellular Energy: Processes features	5.12 6.1 – 6.5	
Wed. 9/17	Energy Transformation - Glycolysis and fermentation - Cellular respiration	4.13 6.6 – 6.7, 6.14 – 6.15 6.9	HW#3 posted – due Sun. 9/21
Fri. 9/19	Energy Transformation: Cellular respiration	6.11 – 6.13	
Mon. 9/22	Energy Transformation: Photosynthesis	4.14 7.1 – 7.2, 7.4 – 7.10, 7.12	
Wed. 9/24	Energy Transformation: Photosynthesis		HW#4 posted – due Sun. 9/28
Fri. 9/26	Information Processing: Identifying the information molecules	1.11; 4.5; 10.1	
Mon. 9/29	Exam 1 Process of Science through Photosynthesis		
Wed. 10/1	Information Processing: Nucleic acids structures and functions	10.2 – 10.3	HW#5 posted – due Sun. 10/5
Fri. 10/3	Information Processing - DNA replication - Intro to gene expression	10.4 – 10.5 10.6	
Mon. 10/6	Information Processing: Transcription	10.9 – 10.10	
Wed. 10/8	Information Processing: Translation and the genetic code	10.7 – 10.8 12.8	HW#6 posted – due Sun. 10/12
Fri. 10/10	No Classes – Fall Recess Day!		

Date	What Are We Discussing?	Readings	Homework Posting and Due Dates
Mon. 10/13	Information Processing: Translation machinery and process	10.11 – 10.15	
Wed. 10/15	Information Processing: Mutations	10.16	HW#7 posted – due Sun. 10/19
Fri. 10/17	Cell Division - Overview - Prokaryotic cell division - Intro to eukaryotic cell division	8.1 – 8.3	
Mon. 10/20	Exam 2 Information Processing (all topics)		
Wed. 10/22	Cell Division: Eukaryotic – mitosis and cancer	8.5 – 8.6, 8.9 – 8.10 11.15 – 11.16	HW#8 posted – due Sun. 10/26
Fri. 10/24	Cell Division: Eukaryotic – meiosis	8.11 – 8.14, 8.18, 8.20	
Mon. 10/27	Inheritance: Intro to inheritance (genetics)	8.15 – 8.17	
Wed. 10/29	Inheritance: Autosomal traits – genotype predictions	9.1 – 9.7, 9.16 – 9.18	HW#9 posted – due Sun. 11/2
Fri. 10/31	Inheritance: Autosomal traits – Mendelian patterns		
Mon. 11/3	Inheritance: Sex-linked genes and traits	9.20 – 9.21	
Wed. 11/5	Inheritance: Autosomal traits – non-Mendelian patterns	9.11 – 9.15	HW#10 posted – due Sun. 11/9
Fri. 11/7	Inheritance: Human genetic diseases	9.9, 9.22	

Date	What Are We Discussing?	Readings	Homework Posting and Due Dates
Mon. 11/10	Microevolution - Intro to evolution - Microevolution overview	1.9 – 1.10 13.8 – 13.9 13.12	
Wed. 11/12	Exam 3 Cell Division through Inheritance		<i>no HW this week!</i>
Fri. 11/14	Microevolution: Genetic drift	13.12	
Mon. 11/17	Microevolution - Mechanisms and genetic drift review - Gene flow	13.12	
Wed. 11/19	Microevolution: Natural selection	13.6 – 13.7 13.13 – 13.16, 13.18	HW#11 posted – due MONDAY 12/1 (the day we're back from break)
Fri. 11/21	Microevolution - Natural selection - Sexual and artificial selection		
Mon. 11/24 through Fri. 11/28	<i>No classes – Thanksgiving Break!</i>		
Mon. 12/1	HIV & Evolution: HIV life cycle and drug resistance	10.17 – 10.20	
Wed. 12/3	HIV & Evolution: HIV life cycle and drug resistance	24.15 HIV External Reading	<i>no HW this week!</i>
Fri. 12/5	HIV & Evolution: HIV and human evolution		
Final Exam Tuesday, December 9 – 10:30am to 12:30pm all Evolution topics <i>and cumulative concepts</i> MLS 235 (our normal classroom)
